

Confirmation of notification of suspected cases of coronavirus in volunteers, on the risk of infection with coronavirus and compliance with hygiene rules
and, if applicable,
confirmation of voluntary work during the coronavirus pandemic by volunteers in at-risk groups

For new signatures, please use this paper consistently for all volunteers, regardless of the at-risk group's question

Surname, first name: _____

Date of birth: _____

Institution / project / community: _____

I hereby confirm that I will immediately inform the management of the aforementioned institution / community / project as soon as I am asked to take a test because of a possible coronavirus infection. I will immediately inform the institution / community / project of the test result.

I am aware that the risk of being infected with coronavirus cannot be ruled out and that I must observe known and, if applicable, institution-specific hygiene rules.

I undertake to only be present on site if I do not have any known Covid-19 symptoms.

If I am in an at-risk group (as defined by the Robert Koch Institute), I confirm that I am aware that, in accordance with the Robert Koch Institute's recommendation for individual medical assessments of the risk posed to at-risk groups, the Berliner Stadmission recommends consulting with a GP to determine the extent to which voluntary work is justifiable in my position, both in principle and in this specific case. I have made a decision on my own based on this recommendation and will review it regularly, in consultation with a GP if necessary, in line with any developments in the coronavirus pandemic.

Place, date, signature of the volunteer or legal representative

Please note: As the Berliner Stadmission, we have a duty of care. We are therefore obliged, in compliance with regulations and our social responsibility, to continuously review the deployment of volunteers depending on how the pandemic evolves, and to undertake any necessary steps as required. We will always try to facilitate your work as far as possible and we kindly ask for your understanding regarding these measures. We thank you from the bottom of our hearts for your commitment!
